MOTOR VEHICLE TRANSPORT ACT, 1987 LOI DE 1987 SUR LES TRANSPORTS ROUTIERS

MOTOR VEHICLE TRANSPORT ACT, 1987, PART II TRUCK APPLICATIONS:

The following are applications for extra-provincial truck transport operating licences under Part II of the Motor Vehicle Transport Act, 1987, S.C. 1987, Chapter 35. The Applicants have been found to meet

the fitness requirements pursuant to Section 8 (2) of that Act and the provincial transport board for Ontario proposes to issue the licences if no objection is served on the Applicant and filed with the Registrar of Motor Vehicles with the prescribed filing fee, within twenty-nine days of this publication.

EXTRA-PROVINCIAL APPLICATIONS:

NOTE: Where the application is for a licence other than a corridor operating authority, an interested person who serves and files an objection must also provide the Ontario Highway Transport Board with written evidence, within thirty-nine days of this publication which satisfies the Board that, in the absence of evidence to the contrary, the operation of the undertaking in respect of which the licence is sought would likely be detrimental to the public interest.

* Indicates a person who has applied for licences under both Part II and Part III of the Motor Vehicle Transport Act, 1987.

INTRA-PROVINCIAL TRUCK APPLICATIONS:

The following are applications for operating licences under Part III of the Motor Vehicle Transport Act, 1987, S.C. 1987, Chapter 35. The applicants have been found to meet the fitness requirement in like manner to section 6 of the Truck Transportation Act, R.S.O. 1990, Chapter T.22, and the provincial transport board for Ontario proposes to issue the licences unless a person, within thirty days of this publication, serves on the Applicant and files with the Registrar of Motor Vehicles with the prescribed filing fee, a written request for a fitness hearing or a public interest test in like manner to Subsection 7 (4) of the Truck Transportation Act, R.S.O. 1990, Chapter T.22.

Exemption—The Town of
Lindsay—LIND-T-1.
Approved—January 15th, 1992.

**ORDER MADE UNDER THE
ENVIRONMENTAL ASSESSMENT ACT**

EXEMPTION—THE TOWN OF LINDSAY—LIND-T-1

Having received a request from The Corporation of the Town of Lindsay (the "Town"), that an undertaking, namely:

The continued operation, as an interim measure, and closure of the existing and approved Town of Lindsay-Ops Landfill Site, situated on the east half of Lot 26, Concession 5, Township of Ops, for the disposal of domestic and non-hazardous, industrial and commercial wastes, with the changes as described in the Report entitled "*The Town of Lindsay Report On Section 29 Environmental Assessment Act Exemption Request—Lindsay-Ops Landfill*", dated April, 1991, prepared by Totten Sims Hubicki Associates,

be exempt from the application of the Act pursuant to section 29; and

Having been advised by the Town that if the undertaking is subject to the application of the Act, the following injury, damage or interference with the persons and property indicated will occur:

- A. The Town will be subject to delay and expense if it is required to prepare an environmental assessment for the interim undertaking.
- B. The current users of the site who are located in Victoria County, the Town of Lindsay, the Township of Ops and the Village of

Omemee will be without a municipal waste disposal facility as of mid 1992.

Having weighed such injury, damage or interference against the betterment of the people of the whole or any part of Ontario by the protection, conservation and wise management in Ontario of the environment which would result from the undertaking being subject to the application of the Act;

The undersigned is of the opinion that it is in the public interest to order and orders that the undertaking is exempt from the application of the Act for the following reasons:

- A. The continued operation of the existing landfill is clearly an interim measure for which there is no other reasonable waste management alternatives which can be implemented within the necessary timeframe.
- B. Alternatives have been investigated.
- C. A public hearing under Part V of the *Environmental Protection Act* for the approval of the continued operation will be held.
- D. It is the intention of the proponent that a long-term waste management program be pursued in accordance with applicable legislation and that sufficient elements of the program will be implemented prior to the conclusion of the exempt undertaking.

This exemption order is subject to the following terms and conditions:

1. Where any activity which otherwise would be exempt under this order is being carried out as or is part of an undertaking for which an environmental assessment has been accepted and approval to proceed received, the activity shall be carried out in accordance with any terms or conditions in the approval to proceed as well as the conditions of this order.
2. Where any activity which is the subject of this order is being carried out as or is part of another undertaking which is the subject of an exemption order under the Act, the activity exempt under this order shall be carried out in accordance with any terms or conditions in the other exemption order as well as the conditions in this order.
3. No waste shall be disposed of from the Village of Omemee pursuant to this order after the earlier of,
 - (i) five years after a Provisional Certificate of Approval for the waste disposal site has been issued pursuant to this order, and
 - (ii) the commencement of operations of a waste disposal site pursuant to the Victoria County Waste Management Master Plan,

unless an application for an approval under the *Environmental Assessment Act* for an undertaking under the Victoria County Waste Management Master Plan which includes a waste disposal site has been submitted to the Minister under the Act, in which case, no waste shall be disposed of from the Village of Omemee pursuant to this order more than one year after a decision is made under the Act to approve or not approve the undertaking.

4. The Town obtaining all necessary approvals for the implementation of a long-term waste management program in accordance with applicable legislation within the interim period specified in condition 3 shall be pursued expeditiously.
5. The Town shall file an annual report to the director, Central Region, Ministry of the Environment, outlining the Town's progress in achieving leachate abatement at the existing site and progress in implementing a long-term waste management program; a copy of the reports shall be given to the Directors of the Environmental Assessment and Approvals Branches of the

Ministry of the Environment. Copies of the reports referred to in this exemption order shall be kept in the public records maintained under section 31 of the Act at the Environmental Assessment Branch.

6. In preparing material and carrying out studies for this application under Part V of the *Environmental Protection Act*, the Town shall consult with any public authorities and groups who express an interest therein and provide them with copies of all relevant material.
7. In the event the site is acquired by another municipality, the acquiring municipality shall carry out the responsibilities of the Town under this order. O. Reg. 118/92.

1. In this Regulation,

- (a) in respect of a board appointed under section 68 of the Act, “current cost of operating” does not include current expenditure for furniture and equipment and for debt charges, and
- (b) if a board has entered into an agreement under subsection 188 (3) of the Act that provides for a payment by the Crown in right of Canada to provide classroom accommodation for a specified number of pupils, the P.A.C. for each such pupil shall be zero;

“high cost program” means,

- (a) a special education program, other than a program provided in the board's school in lieu of an education program provided by a provincial school for the blind and the deaf or other similar program for which a general legislative grant is payable, or
- (b) a program that includes technological studies that qualify for one or more credits toward the secondary school graduation diploma or Ontario secondary school diploma;

“technological studies” means the courses developed from curriculum guidelines that are issued by the Minister for the intermediate division and senior division and listed under the heading “Technological Studies” in the circular entitled “Ontario Schools Intermediate and Senior Divisions Program and Diploma Requirements” issued by the Minister.

2.—(1) This Regulation applies to fees for pupils in respect of the year 1992.

(2) The fees under this Regulation shall be calculated separately for elementary school purposes and for secondary school purposes.

FEES CHARGED TO BOARDS

3.—(1) Except as provided in section 4, the fee in respect of a pupil whose fee is receivable from another board, from Canada or from a band, council of a band or education authority authorized by the Crown in right of Canada to provide education for Indians or for a pupil to whom subsection 49 (6) of the Act applies, shall be calculated by,

- (a) subtracting from the current cost of operating of the board that provides the instruction, the grants payable to the board in respect of the eligible sum for French as a first language, the eligible sum for French as a second language, the eligible sum for Native as a second language, the eligible sum for full-day kindergarten and the reduction in class size in grades 1 and 2 as determined under section 21 of Ontario Regulation 119/92 (General Legislative Grants) and dividing the difference so obtained by the sum of the average daily enrolment that is,
- (i) calculated under section 2 of Ontario Regulation 89/91 (Calculation of Average Daily Enrolment) in respect of resident-internal and non-resident pupils of the board, and
- (ii) calculated under section 3 of Ontario Regulation 89/91 (Calculation of Average Daily Enrolment) in respect of resident-internal and non-resident pupils of the board enrolled in summer schools established by the board in a course of study acceptable to the Minister that the board is authorized or required to provide in its day school program in grades 1 to 8; and
- (b) multiplying the A.D.E. of the pupil to whom subsection 49 (6) of the Act applies or the A.D.E. of the pupil whose fee is

receivable from another board, from Canada or from a band, council of a band or education authority, as the case may be, by the sum of,

- (i) the amount determined under clause (a), and
- (ii) the P.A.C. for such pupil.

(2) Subclause (1) (b) (ii) does not apply to a board that is appointed under section 68 of the Act.

(3) The fee in respect of a pupil referred to in subsection (1) who is enrolled in a Native language program and whose fee is receivable from Canada or from a band, council of a band or education authority authorized by the Crown in right of Canada to provide education for Indians may be increased by an amount equal to the portion of the eligible sum for Native as a second language that would be generated for such pupil if the pupil were a resident pupil of the board.

(4) The fee in respect of a pupil referred to in subsection (1) who is enrolled in a high cost program may be increased by multiplying the fee by a factor agreed upon by the board and party from whom the fees are receivable when,

- (a) the ratio of the A.D.E. of such pupils registered in a high cost program for whom fees are receivable by the board from such party to the A.D.E. of pupils enrolled in such high cost program conducted by the board,

is greater than,

- (b) the ratio of the A.D.E. of such pupils for whom fees are receivable by the board from such party to the A.D.E. of pupils enrolled in schools operated by the board.

(5) If under this section the board that provides the instruction and the other board or party concerned cannot agree upon a factor, the factor shall be determined by three arbitrators.

(6) If the fee is in respect of a pupil for whom the Minister pays the cost of education, the three arbitrators shall be,

- (a) one arbitrator appointed by the board that provides the instruction;
- (b) one arbitrator appointed by the Minister; and
- (c) one arbitrator appointed by the arbitrators appointed under clauses (a) and (b).

(7) In all cases other than a case to which subsection (6) applies, the three arbitrators shall be,

- (a) one arbitrator appointed by the board that provides the instruction;
- (b) one arbitrator appointed by the board from which or the party from whom the fee is receivable; and
- (c) one arbitrator appointed by the arbitrators appointed under clauses (a) and (b).

(8) The decision of the arbitrators or a majority of them is final and binding upon the board that provides the instruction and the other board or party concerned.

FEES PAID TO SECTION 68 HOSPITAL BOARDS

4. The fee in respect of a pupil enrolled in a school operated by a board that is appointed under section 68 of the Act in a centre for the treatment of cerebral palsy, a crippled children's treatment centre, a hospital or a sanatorium shall be calculated by,

- (a) adding to the current cost of operating of the board that provides the instruction, the portion approved by the Minister for grant purposes of the expenditure for such year for the transportation of pupils and deducting from the total thereof the general legislative grants payable to the board for such year, except a grant that is equal to the cost of education;
- (b) dividing the amount determined under clause (a) by the sum of the days on which each pupil is enrolled at the school; and
- (c) multiplying the amount determined under clause (b) by the number of days for which the pupil whose fee is being calculated is enrolled at the school.

FEES CHARGED TO PARENTS RESIDING IN ONTARIO

5.—(1) The fee charged by a board in respect of a pupil whose parent or guardian is resident in Ontario, other than a pupil whose fee is receivable from another board, from Canada or from a band, council of a band or education authority authorized by the Crown in right of Canada to provide education for Indians, shall not exceed the fee referred to in subsection (3) or (4), as the case requires.

(2) Subsection (1) does not apply to a board that is appointed under section 68 of the Act.

(3) The fee in respect of one or more pupils who reside with their parent or guardian in a school section, separate school zone or secondary school district on land that is exempt from taxation for school purposes shall not exceed,

- (a) \$74 for each month such pupil or pupils are enrolled in an elementary school operated by the board; and
- (b) \$74 for each month such pupil or pupils are enrolled in a secondary school operated by the board.

(4) In the case of a pupil who is qualified to be a resident pupil of a school section, separate school zone or secondary school district, the fee in respect of the pupil shall not exceed, for each month the pupil is enrolled, the greater of,

- (a) \$74; and
- (b) one-tenth of the sum of,
 - (i) the quotient obtained by dividing,
 - (A) the board's estimate of the excess of its O.E. for the year over its R.O.E.,
 by,
 - (B) the A.D.E. of the board for the year that is in respect of resident-internal and resident-external pupils of the board, and
- (ii) the P.A.C.

(5) If a pupil is enrolled in a high cost program, the amount calculated under subsection (4) may be increased by an amount that does not exceed the additional cost to the board of providing the high cost program to the pupil.

FEES CHARGED TO PARENTS NOT RESIDING IN ONTARIO

6.—(1) The fee in respect of a pupil whose parent or guardian does not reside in Ontario shall be such fee as the board providing the instruction to the pupil may determine and, except as is provided in subsection (3), shall not exceed the product obtained by multiplying one-tenth of the sum of the quotient determined under clause 3 (1) (a) and the P.A.C. for the pupil by the number of months during which the pupil is enrolled in such year in a school operated by the board.

(2) Subsection (1) does not apply to a pupil to whom subsection 49 (6) of the Act applies.

(3) The fee in respect of a pupil referred to in subsection (1) who is enrolled in a high cost program shall be determined by multiplying the fee determined under subsection (1) by a factor to be agreed upon between the board that provides the instruction and the party from whom the fees are receivable.

FEES FOR PROGRAMS IN FACILITIES

7.—(1) The fee charged by a board in respect of a pupil who is not qualified to be a resident pupil of the board and for whom an educational program is provided in a hospital or treatment centre shall be such fee as may be agreed upon between the board that provides the program and,

- (a) the board of which the pupil is qualified to be a resident pupil; or
- (b) if the pupil is not qualified to be a resident pupil of a board, the parent or guardian of the pupil.

(2) Subsection (1) does not apply to a board that provides the educational program if the board,

- (a) is appointed under section 68 of the Act; or
- (b) receives a grant under section 27 of Ontario Regulation 119/92 (General Legislative Grants) with respect to that educational program.

Environmental Assessment Act Loi sur les évaluations environnementales

NOTICE OF ACCEPTANCE OF THE ENVIRONMENTAL ASSESSMENT (SECTION 9)

RE: An Environmental Assessment for the Spadina Subway Extension

Proponents: The Municipality of Metropolitan Toronto and The
Toronto Transit Commission

EA File No.: TP-TT-02

TAKE NOTICE that I have accepted the above-noted Environmental Assessment as amended by the letter from the Toronto Transit Commission dated December 6, 1991.

The date for receipt by me of submissions or requirements for a hearing on the Environmental Assessment and its Review expired on October 31, 1991. I received three submissions by that date, none of which required a hearing.

Accordingly, I have accepted the Environmental Assessment.

In making this decision, I have considered the purpose of the *Environmental Assessment Act*, the Environmental Assessment and the Review, submissions received from the following individuals:

- Mr. G. Davies;
- Mr. I. Lithgow on behalf of the Loop Group;
- Ms. R. Sheppard; and

the letter, dated December 6, 1991, submitted from the Toronto Transit Commission and I am of the opinion that the Environmental Assessment is satisfactory to enable a decision to be made as to whether approval to proceed with the undertaking should be given.

Under section 13 of the Act, before approval to proceed with the undertaking can be given, the proponents or anyone having previously made a submission under subsection 7 (2) of the Act on the *Notice of Completion of Environmental Assessment Review* for this undertaking, may require a hearing by the Environmental Assessment Board. I will require such a hearing unless in my absolute discretion, pursuant to Clause 13 (d) of the Act, I consider that the requirement is frivolous or vexatious or that a hearing is unnecessary or may cause undue delay.

A requirement for a hearing should be sent or delivered to me at the address below and **MUST BE RECEIVED ON OR BEFORE January 24, 1992.**

If no request for a hearing is made, before the above date, I propose, subject to obtaining the approval of the Lieutenant Governor in Council, to give approval to proceed with the undertaking.

Dated at Toronto, this 31st day of December, 1991.

Minister of the Environment

ORDER IN COUNCIL DÉCRET

Sur la recommandation du soussigné, le lieutenant-gouverneur, sur l'avis et avec le consentement du Conseil des ministres, décrète ce qui suit :

WHEREAS section 14 of the *Environmental Assessment Act* provides that where the Minister of the Environment has accepted an environmental assessment of an undertaking, the Minister may with the approval of the Lieutenant Governor in Council, give approval to proceed with the undertaking subject to such terms and conditions as the Minister considers necessary, or refuse to give approval to proceed with the undertaking;

WHEREAS, having considered the purpose of the Act, the environmental assessment, as amended and accepted, of the undertaking, which is the subject of the attached notice, and the submissions received, the undersigned Minister of the Environment is of the opinion that the undertaking should be given approval to proceed, subject to the terms and conditions specified in the attached notice; and

WHEREAS a notice to the Minister of the Environment, requesting a hearing has been withdrawn.

THEREFORE, pursuant to the provisions of the *Environmental Assessment Act*, the undertaking which is the subject of the attached notice, be given approval to proceed subject to the said terms and conditions.

Recommended

RUTH GRIER,
Minister of Transportation.

SECTION 14

NOTICE OF APPROVAL TO PROCEED WITH THE UNDERTAKING

RE: An Environmental Assessment for the Spadina Subway Extension
(from Wilson Subway Station to Sheppard Avenue)

Proponent: The Municipality of Metropolitan Toronto and the
Toronto Transit Commission

EA File No.: TP-TT-02

TAKE NOTICE that the period for requiring a hearing, provided for in the *Notice of Acceptance of the Environmental Assessment* for the undertaking, expired on January 24, 1992. I have received one notice requiring a hearing by the Environmental Assessment Board with respect to approval to proceed with the undertaking. This notice has been withdrawn and as such a hearing was deemed unnecessary.

Having considered the purpose of the Act, the Environmental Assessment of the undertaking as amended and accepted and the submissions received, I hereby give approval to proceed with the undertaking subject to the following terms and conditions:

1. Except as otherwise provided by these conditions, the undertaking shall be carried out in accordance with the provisions of the Environmental Assessment which are incorporated herein by reference.
2. Prior to the commencement of construction, the proponent shall

prepare a Soils Management Strategy for any movement of contaminated soil. It shall be submitted to the Ministry of the Environment (MOE) Central Region which will address dust control and disposal.

3. Prior to the commencement of construction, the proponent shall prepare a Stormwater Management Plan including the issue of soil erosion to be submitted to MOE Central Region.
4. Prior to the commencement of construction and completion of detailed construction design, the Toronto Transit Commission (TTC) shall finalize a noise and vibration protocol with the MOE. TTC shall provide for the review and acceptance by the MOE Noise Assessment and Systems Support Unit a report documenting how the concerns in the MOE amended technical review of November 14, 1991, have been resolved in accordance with the finalized TTC/MOE noise and vibration protocol.
5. The undertaking shall be carried out in accordance with the Strategy, Plan, protocol and report referred to in conditions 2, 3 and 4 with such changes the MOE agrees to.
6. The location and orientation of the new subway station at Allen Road and Sheppard Avenue shall be consistent with and not negatively affect in cost or otherwise any subway loop to Keele Street or York University.
7. The Toronto Transit Commission will abide by the agreement documented in the letters of February 6, 1992 between York University and the Toronto Transit Commission, copies of which have been filed in the public record maintained under the Act for this undertaking.

REASONS

My reasons for giving approval are:

1. On the basis of the proponent's Environmental Assessment and the Review, the proponent's conclusion that, on balance, the advantages of this undertaking outweigh its disadvantages appears to be valid.
2. No other more beneficial alternative method of implementing the undertaking was identified.
3. On the basis of the proponent's Environmental Assessment, the review and the conditions of approval, the construction, operation and maintenance of the undertaking will be consistent with the purpose of the Act (section 2).
4. The proponent's agreement of February 6, 1992 between the Toronto Transit Commission and York University.

The following are applications for operating licences under Part III of the Motor Vehicle Transport Act, 1987, S.C. 1987, Chapter 35. The

applicants have been found to meet the fitness requirement in like manner to section 6 of the Truck Transportation Act, R.S.O. 1990, Chapter T.22, and the provincial transport board for Ontario proposes to issue the licences unless a person, within thirty days of this publication, serves on the Applicant and files with the Registrar of Motor Vehicles with the prescribed filing fee, a written request for a fitness hearing or a public interest test in like manner to Subsection 7(4) of the Truck Transportation Act, R.S.O. 1990, Chapter T.22.

NOTE: A person who requests a public interest hearing must, within thirty-nine days of this publication, serve on the Ontario Highway Transport Board a document that makes out a written case to the Board that the granting of the operating authority applied for would be likely to have a significant detrimental effect on the public interest using the criteria set out in subsection 10(1) of the Truck Transportation Act, R.S.O. 1990, Chapter T.22, and that the request is not frivolously made.

ENVIRONMENTAL ASSESSMENT ACT**O. Reg. 169/92.**

Exemption for emergency activities on
three abandoned mine sites in the townships of
Tisdale and Deloro, City of Timmins—MNDM-2.
Approved—March 6th, 1992.
Filed—March 25th, 1992.

**ORDER MADE UNDER THE
ENVIRONMENTAL ASSESSMENT ACT**

**EXEMPTION FOR EMERGENCY ACTIVITIES ON
THREE ABANDONED MINE SITES IN THE
TOWNSHIPS OF TISDALE AND DELORO,
CITY OF TIMMINS—MNDM-2**

Having received a request from the Minister of Northern Development and Mines (MNDM) that an undertaking, namely:

The activity of the rehabilitation of three abandoned mine sites in the City of Timmins, namely the ERG Tailings Basins, the Hollinger Mine Tailings Stack and the McIntyre Mine Tailings Stack, to prevent the escape of tailings,

be exempt from the application of the Act pursuant to section 29; and

Having been advised by MNDM that if the undertaking is subject to the application of the Act, the following injury, damage or interference with the persons and property indicated will occur:

- A. If the rehabilitation activities are postponed while an environmental assessment is being prepared, there will remain the risk of an uncontrolled spill of retained water and/or the escape of tailings as a result of failure of a dam, berm or spillway from any of the three locations referred to in Condition 1.

- B. The uncontrolled spill of retained water and/or the escape of tailings described in A could:

- (1) contaminate the surrounding watershed;
- (2) have an environmental and ecological impact on the surrounding watershed;
- (3) in the case of the Hollinger Site, pose a physical danger to human lives and surrounding properties, including trailer homes in a trailer park on the west side of the Hollinger Site;
- (4) in the case of the ERG Disposal Site and the McIntyre Site, potentially plug the tributary creek to the Porcupine River with tailings and impact the bed of the river;
- (5) in the case of the ERG Disposal Site, release contaminated water and possibly shock load Bell Creek and negatively affect the aquatic habitat; and

Having weighed such injury, damage or interference against the betterment of the people of the whole or any part of Ontario by the protection, conservation and wise management in Ontario of the environment which would result from the undertaking being subject to the application of the Act;

The undersigned is of the opinion that it is in the public interest to order and orders that the undertaking is exempt from the application of the Act for the following reasons:

- A. The activities of rehabilitation, as described by the undertaking, will reduce the risk of damage and injury occurring, while permanent closure plans are being prepared for the sites described in Condition 1.

This exemption is subject to the following terms and conditions:

1. The activities, as referred to in the undertaking, are described as follows:

(a) *ERG Tailings Basins*

Permanently draining the surface waters from the south basin of the ERG disposal site by means of a spillway draining to the Porcupine River (North half of Concession IV, Lot 3, Tisdale Township); and

Making repairs to the north basin dam and spillway to ensure the integrity of the dams and to remove immediate hazards (South-East corner of the North half of Concession V, Lot 2 and the North-East corner of the South half of Concession V, Lot 2, Tisdale Township).

(b) *Hollinger Mine Tailings Stack*

Excavating a ditch and setting up a rip-rap lined spillway in order to permanently drain the water that is retained on top of the tailings stack, and increasing the stability of the slopes (Concession I, lots 10, 11, 12 of Tisdale Township, and Concession VI, lots 10, 11, 12 of Deloro Township).

(c) *McIntyre Mine Tailings Stack*

Building a permeable berm to separate tailings from the runoff from the McIntyre Mine Tailings Stack and excavating the tailings presently contained in the two sumps (Concession IV, Lot 7, Tisdale Township).

2. Potentially affected agencies, including the Ministry of Natural Resources, the Ministry of the Environment, the Mattagami River Conservation Authority and The Corporation of the City of Timmins, shall be advised of the program prior to the commencement of activities, and the concerns

and requirements of these agencies shall be incorporated into the program.

3. The analysis and design work shall be carried out by professional engineers.
4. The construction work shall be managed and inspected by a professional engineer with MNDM.
5. A written report shall be submitted by MNDM to above affected agencies in six months time outlining the work done, results achieved and any changes in the proposed work which is part of the exempt undertaking.
6. MNDM will ensure that the site is inspected quarterly until the basins are permanently closed according to the *Mining Act*.
7. MNDM will ensure that exempt activities will be followed by a long-term rehabilitation and management approach to the three sites. O. Reg. 169/92.

INTRA-PROVINCIAL TRUCK APPLICATIONS:

The following are applications for operating licences under Part III of the Motor Vehicle Transport Act, 1987, S.C. 1987, Chapter 35. The applicants have been found to meet the fitness requirement in like manner to section 6 of the Truck Transportation Act, R.S.O. 1990, Chapter T.22, and the provincial transport board for Ontario proposes to issue the licences unless a person, within thirty days of this publication, serves on the Applicant and files with the Registrar of Motor Vehicles with the prescribed filing fee, a written request for a fitness hearing or a public interest test in like manner to Subsection 7(4) of the Truck Transportation Act, R.S.O. 1990, Chapter T.22.

NOTE: A person who requests a public interest hearing must, within thirty-nine days of this publication, serve on the Ontario Highway Transport Board a document that makes out a written case to the Board that the granting of the operating authority applied for would be likely to have a significant detrimental effect on the public interest using the criteria set out in subsection 10(1) of the Truck Transportation Act, R.S.O. 1990, Chapter T.22, and that the request is not frivolously made.

The applicants have been found to meet the fitness requirement in like manner to section 6 of the Truck Transportation Act, R.S.O. 1990, Chapter T.22, and the provincial transport board for Ontario proposes to issue the licences unless a person, within thirty days of this publication, serves on the Applicant and files with the Registrar of Motor Vehicles with the prescribed filing fee, a written request for a fitness hearing or a public interest test in like manner to Subsection 7 (4) of the Truck Transportation Act, R.S.O. 1990, Chapter T.22.

NOTE: A person who requests a public interest hearing must, within thirty-nine days of this publication, serve on the Ontario Highway Transport Board a document that makes out a written case to the Board that the granting of the operating authority applied for would be likely to have a significant detrimental effect on the public interest using the criteria set out in subsection 10 (1) of the Truck Transportation Act, R.S.O. 1990, Chapter T.22, and that the request is not frivolously made.

INTRA-PROVINCIAL TRUCK APPLICATIONS:

The following are applications for operating licences under Part III of the Motor Vehicle Transport Act, 1987, S.C. 1987, Chapter 35. The applicants have been found to meet the fitness requirement in like manner to section 6 of the Truck Transportation Act, R.S.O. 1990, Chapter T.22, and the provincial transport board for Ontario proposes to issue the licences unless a person, within thirty days of this publication, serves on the Applicant and files with the Registrar of Motor Vehicles with the prescribed filing fee, a written request for a fitness hearing or a public interest test in like manner to Subsection 7(4) of the Truck Transportation Act, R.S.O. 1990, Chapter T.22.

NOTE: A person who requests a public interest hearing must, within thirty-nine days of this publication, serve on the Ontario Highway Transport Board a document that makes out a written case to the Board that the granting of the operating authority applied for would be likely to have a significant detrimental effect on the public interest using the criteria set out in subsection 10(1) of the Truck Transportation Act, R.S.O. 1990, Chapter T.22, and that the request is not frivolously made.

ENVIRONMENTAL ASSESSMENT ACT**O. Reg. 232/92**

Exemption—Township of Asphodel—ASPH-T-1

Approved—April 16th, 1992
Filed—April 28th, 1992

**ORDER MADE UNDER THE
ENVIRONMENTAL ASSESSMENT ACT**

EXEMPTION—TOWNSHIP OF ASPHODEL—ASPH-T-1

Having received a request from The Corporation of the Township of Asphodel (the Township) that an undertaking, namely:

The continued operation as an interim measure and closure of the existing and approved Township of Asphodel Landfill Site, situated on Parts 1, 2, 3 and 4, lots 17 and 18, Concession IV and Parts 5, 6, 7, 8, 9, 10 and 11, lots 17 and 18, Concession V, in the County of Peterborough, for the disposal of domestic, commercial and non-hazardous solid industrial (agricultural) wastes with the changes as described in the Report entitled "Request for Section 29 Exemption from the *Environmental Assessment Act* for Interim Height Expansion of the Existing, Asphodel Landfill Site", dated February, 1992, prepared by Proctor & Redfern Limited,

be exempt from the application of the Act pursuant to section 29; and

Having been advised by the Township that if the undertaking is subject to the application of the Act, the following injury, damage or interference with the persons and property indicated will occur:

- A. The Township will be subject to delay and expense if it is required to prepare an environmental assessment for the interim undertaking.
- B. The current users of the site who are located in Peterborough County, the Township of Asphodel will be without a municipal waste disposal facility as of March 7, 1992.

Having weighed such injury, damage or interference against the betterment of the people of the whole or any part of Ontario by the protection, conservation and wise management in Ontario of the environment which would result from the undertaking being subject to the application of the Act;

The undersigned is of the opinion that it is in the public interest to order and orders that the undertaking is exempt from the application of the Act for the following reasons:

- A. The continued operation of the existing landfill is clearly an interim measure for which there is no other reasonable waste management alternatives which can be implemented within the necessary timeframe. Steps have been taken to reduce dependence on disposal through landfilling by implementing 3Rs opportunities, including recycling and home composting.
- B. Alternatives have been investigated.
- C. A public hearing under Part V of the *Environmental Protection Act* for the approval of the continued operation will be held.

- D. It is the intention of the proponent that a long term waste management program be pursued in accordance with applicable legislation and that sufficient elements of the program will be implemented prior to the conclusion of the exempt undertaking to avoid the need for further exemptions.

This exemption is subject to the following terms and conditions:

1. Where any activity which otherwise would be exempt under this order is being carried out as or is part of an undertaking for which an environmental assessment has been accepted and approval to proceed received, the activity shall be carried out in accordance with any terms or conditions in the approval to proceed as well as the conditions of this order.
2. Where any activity which is the subject of this order is being carried out as or is part of another undertaking which is the subject of an exemption order under the Act, the activity exempt under this order shall be carried out in accordance with any terms or conditions in the other exemption order as well as the conditions in this order.
3. No waste shall be disposed of from the Township of Asphodel pursuant to this Order after the earlier of:

- (i) five years after a provisional Certificate of Approval for the waste disposal site has been issued pursuant to this order, and
- (ii) the commencement of operations of a waste disposal site pursuant to the Peterborough County Waste Management Master Plan,

unless an application for an approval under the *Environmental Assessment Act* for an undertaking under the Peterborough County Waste Management Master Plan which includes a waste disposal site, at which waste from the Township of Asphodel may be disposed, has been submitted to the Minister under the Act, in which case, no waste shall be disposed of

from the Township of Asphodel pursuant to this order more than one year after a decision is made under the Act to approve or not approve the undertaking.

4. Obtaining all necessary approvals for the implementation of a long term waste management program in accordance with applicable legislation within the interim period specified in condition 3 shall be pursued expeditiously.
5. The Township shall file an annual report to the Director, Central Region, Ministry of the Environment, outlining the Township's progress in achieving leachate abatement at the existing site and the progress in implementing a long term waste management program; a copy of the reports shall be given to the Directors of the Environmental Assessment and Approvals Branches of the Ministry of the Environment. Copies of the reports referred to in this exemption order shall be kept in the public records maintained under section 30 of the Act by the Environmental Assessment Branch.
6. In preparing material and carrying out studies for the application under Part V of the *Environmental Protection Act*, the Township shall consult with any public authorities and groups who express an interest therein and provide them with copies of all relevant material.
7. Except as provided in the approval issued under Part V of the *Environmental Protection Act*, the undertaking shall be carried out in accordance with the February, 1992 Proctor and Redfern Limited report.
8. In the event the site is acquired by another municipality, the acquiring municipality shall carry out the responsibilities of the Township under this order. O. Reg. 232/92.

NOTICE OF ACCEPTANCE OF
THE ENVIRONMENTAL ASSESSMENT
(SECTION 9)

RE: An Environmental Assessment for Spadina Light Rail Transit
(LRT) (Streetcar on reserved right of way)

Proponents: The Municipality of Metropolitan Toronto and The
Toronto Transit Commission

EA File No.: TP-TT-02

TAKE NOTICE that I have accepted the above-noted Environmental
Assessment.

The date for receipt by me of submissions or requirements for a hearing
on the Environmental Assessment and/or its Review expired on October

31, 1991. By that date, I received 17 submissions of which 9 were requirements for a hearing. I do not consider it advisable to hold a hearing at this time.

Accordingly, I have accepted the Environmental Assessment.

I consider that a hearing is unnecessary for the following reasons:

1. Some of the concerns raised in the submissions have been addressed in the EA; and
2. The remaining concerns can be dealt with through conditions of approval.

Since a hearing regarding acceptance is unnecessary to deal with the concerns raised, I am of the opinion that a hearing at this stage in the environmental assessment process would cause undue delay.

In making this decision, I have considered the purpose of the *Environmental Assessment Act*, the Environmental Assessment and the Review, submissions received from agencies and the public and reports submitted from the proponents and I am of the opinion that the Environmental Assessment is satisfactory to enable a decision to be made as to whether approval to proceed with the undertaking should be given.

Under section 13 of the Act, before approval to proceed with the undertaking can be given, the proponent or anyone having previously made a submission under subsection 7 (2) of the Act on the *Notice of Completion of Environmental Assessment Review* for this undertaking, may require a hearing by the Environmental Assessment Board. I will require such a hearing unless in my absolute discretion, pursuant to Clause 13 (d) of the Act, I consider that the requirement is frivolous or vexatious or that a hearing is unnecessary or may cause undue delay.

A requirement for a hearing should be sent or delivered to me at the address below and **MUST BE RECEIVED ON OR BEFORE April 10th, 1992.**

If no request for a hearing is made, before the above date, I propose, subject to obtaining the approval of the Lieutenant Governor in Council, to give approval to proceed with the undertaking.

Dated at Toronto this 11th day of March, 1992.

Sur la recommandation du soussigné, le lieutenant-gouverneur, sur l'avis et avec le consentement du Conseil des ministres, décrète ce qui suit :

WHEREAS Section 14 of the *Environmental Assessment Act* provides that where the Minister of the Environment has accepted an environmental assessment of an undertaking, the Minister may with the approval of the Lieutenant Governor in Council, give approval to proceed with the undertaking subject to such terms and conditions as the Minister considers necessary, or refuse to give approval to proceed with the undertaking;

WHEREAS two notices requiring a hearing have been received by the Minister of the Environment;

WHEREAS, having considered the purpose of the Act, the environmental assessment, as accepted, of the undertaking, which is the subject of the attached notice, and the submissions received, the undersigned

Minister of the Environment considers that a hearing is unnecessary and of the opinion that the undertaking should be given approval to proceed, subject to the terms and conditions specified in the attached notice; and

NOTICE OF APPROVAL TO PROCEED WITH THE UNDERTAKING

O.C./Décret 1341/92

RE: An Environmental Assessment for the Spadina Light Rail Transit (LRT) (Streetcar on reserved right of way)

Proponents: The Municipality of Metropolitan Toronto (Metro) and The Toronto Transit Commission (TTC)

EA File No.: TP-TT-02

TAKE NOTICE that the period for requiring a hearing, provided for in the *Notice of Acceptance of the Environmental Assessment* for the undertaking, expired on April 10, 1992. I have received two notices requiring a hearing by the Environmental Assessment Board with respect to approval to proceed with the undertaking. I do not consider it necessary or advisable that a hearing be held.

Having considered the purpose of the Act, the Environmental Assessment of the undertaking as accepted and the submissions received, I hereby give approval to proceed with the undertaking subject to the following terms and conditions:

1. Except as otherwise provided by these conditions, the undertaking shall be carried out in accordance with the provisions of the Environmental Assessment (EA) which are incorporated herein by reference.

System Accessibility

2. Every reasonable effort shall be made by the TTC to have all components of the Spadina LRT accessible to the disabled on its opening day.

Parking

3. Metro and the TTC shall prepare a replacement parking strategy which considers integrating the replacement of the 166 angle parking spaces that are proposed to be removed by the undertaking with new development in the Spadina area. This may be conducted in conjunction with the Parking Authority of Toronto and The Corporation of the City of Toronto.

4. Current allowances for off-peak parallel parking on Spadina Avenue south of Queen Street shall be maintained (as indicated in the EA).

Spadina Station

5. The TTC shall make available to the public its update to the cost of the proposed underground Spadina Station.

Transit Stops

6. The TTC shall review further with each affected community, the number of stops and may increase the number of stops, including ancillary changes, as a result.

Streetscape

7. The streetscape design study shall be developed by the TTC and Metro in consultation with each of the affected communities including local businesses, residents, and the City of Toronto.
8. The streetscape design study shall be directed by a Technical Committee made up of the following officials or their appointed designates:
 - the Commissioners of Metropolitan Toronto's Planning and Transportation Departments;
 - the General Manager of TTC's Engineering and Maintenance Branch; and
 - if they consent, the Commissioners of the Corporation of the City of Toronto's Planning and Development Department and Public Works and the Environment Department.
9. With the agreement of the members of the Technical Committee, the functional design of the undertaking may be modified to permit the integration of the streetscape design provided the modification does not contradict any other condition excluding #1.

Bicycles

10. The safety of bicycle transportation along Spadina Avenue shall be considered in the streetscape design study.

Sidewalks

11. There shall be no overall reduction in pedestrian area on Spadina Avenue between Bloor and Queen Streets.
- 12.1 A minimum of 90% of the public pedestrian area south of Queen Street shall be retained.
- 12.2 The average width of public sidewalks south of Queen Street on the east side shall not be less than 4.6 m. The existing average width is 4.9 m.
- 12.3 The average width of public sidewalks south of Queen Street on the west side shall not be less than 4.0 m. The existing average width is 4.9 m.
13. The design changes to accommodate the changes to the sidewalk widths and any changes resulting therefrom, shall be incorporated in the final streetscape design by Metro and the TTC and submitted to the Ministry of the Environment (MOE) EA Branch to be filed in the public record.

Pedestrian Safety at Spadina Crescent

- 14.1 Metro shall conduct a detailed pedestrian safety study for Spadina Crescent considering present and future use scenarios.
- 14.2 The overall design of the Spadina LRT project shall not preclude the future provision of a safe accessible at-grade pedestrian crossing to 1 Spadina Crescent.

Noise & Vibration

15. Prior to the commencement of construction and the completion of detailed construction design the TTC shall finalize a noise and vibration protocol with MOE. The TTC shall provide for the review and acceptance by the MOE Noise Assessment and Systems Support Unit, a report documenting how the concerns in the MOE technical review of July 10, 1991, have been resolved in accordance with the finalized TTC/MOE noise and vibration protocol.

- 16.1 Noise and vibration (including wheel squeal) on Spadina Crescent shall be monitored before, during and after construction with the results being made available to the public and the University of Toronto.

- 16.2 Every reasonable effort shall be made by the TTC to minimize the noise and vibration impacts of the LRT through the use of state-of-the-art technology and operating procedures. Such technology is constantly advancing and thus the TTC shall apply tested and viable developments to further reduce noise and vibration impacts.

17. The undertaking shall be carried out in accordance with the studies, strategy and protocol referred to in conditions 3, 7, 14.1 and 15 with such changes as the MOE agrees to.

Emergency Services

18. Metro ambulance services and local fire and police departments shall be invited to comment on the detailed design of the facilities. The functional design of the LRT may be modified to ensure citizen safety during construction and operation of the system.

Right-of-Way

- 19.1 The design of the undertaking shall ensure that the vertical separation of the grade of the right-of-way from the grade of the adjacent portion of the street used by the public for vehicle traffic shall not exceed 50mm (2 inches).
- 19.2 There shall be no vertical separation at street intersections or where the urban design features delineate the right-of-way.
- 19.3 Conditions 19.1 and 19.2 do not prevent any grading required for drainage purposes.
- 19.4 Conditions 19.1 and 19.2 do not prevent any platforms or urban design features, which separate the part of the right-of-way used by TTC vehicles from the adjacent portion of the street used by the public for vehicle traffic, from being built.

Turn Provision

20. Left turns from northbound Spadina Avenue into Camden Street shall be allowed (as indicated in the EA).

REASONS:

My reasons for giving approval are:

1. On the basis of the proponent's Environmental Assessment and the Review, the proponent's conclusion that, on balance, the advantages of this undertaking outweigh its disadvantages appears to be valid.
2. No other more beneficial alternative method of implementing the undertaking was identified.
3. On the basis of the proponent's Environmental Assessment, the review and the conditions of approval, the construction, operation and maintenance of the undertaking will be consistent with the purpose of the Act (section 2).

Dated at Toronto this 30th day of April, 1992.

IN THE MATTER OF Section 95 of the
Workers' Compensation Act,
R.S.O. 1990, c. W. 11, as amended;

AND IN THE MATTER OF the findings of
the Industrial Disease Standards Panel
in their Interim Report to the
Workers' Compensation Board
On Scleroderma

REQUEST FOR SUBMISSIONS

Section 95 of the *Workers Compensation Act* provides for the constitution of an Industrial Disease Standards Panel (the "Panel"). It is the function of the Panel to:

- a) investigate possible industrial diseases;
- b) make findings as to whether a probable connection exists between a disease and an industrial process, trade or occupation in Ontario;
- c) create, develop and revise criteria for the evaluation of claims respecting industrial diseases; and
- d) advise on eligibility rules regarding compensation for claims respecting industrial diseases.

By letter dated March 31, 1992, the Panel provided the Workers' Compensation Board with an Interim Report of Findings on Scleroderma.

As indicated in the Panel's report, on May 22, 1991, the Chair of the IDSP received a letter from Mr. Gilles Bisson, MPP for Cochrane South, who requested that the Industrial Disease Standards Panel investigate the connection of "people who work in the mining profession and the symptoms of scleroderma" (1). The MPP was aware of two miners in his constituency who purportedly were suffering from the disease. Coincident with this referral, a third case, also in a miner, appeared in newspaper accounts in a different area of the Province.

Included in this notice are the following:

1. the Panel's letter of transmittal dated March 31, 1992
2. the Interim Report of the Industrial Disease Standards Panel to the Workers' Compensation Board on Scleroderma, and
3. Bibliography

In accordance with subsection 95(12) of the *Workers' Compensation*

Act, the Board has published this notice setting forth the nature of the findings of the Panel and hereby requests written comments, briefs and submissions from any interested parties. Comments, briefs and submissions must be filed with the Board within 90 days from the date of this notice.

All comments, briefs and submissions should be sent to **Linda Angove, Secretary to the Board, Workers' Compensation Board, 2 Bloor Street East, 20th Floor, Toronto, Ontario M4W 3C3.**

Upon the expiry of the 90 day period herein, the Board, pursuant to subsection 95(13), may accept the findings of the Panel with or without amendments or it may reject the findings.

Notice of the Board's acceptance or rejection, with reasons therefore, will be published in the Ontario Gazette in accordance with subsection 95(15) of the *Workers' Compensation Act*.

Interim Report to the Workers' Compensation Board on Scleroderma

March 31, 1992

Origin and Background of the Referral

On May 22, 1991, the Chair received a letter from Mr. Gilles Bisson, MPP for Cochrane South, who requested that the Industrial Disease Standards Panel investigate the connection of "people who work in the mining profession and the symptoms of scleroderma" (1). The MPP was aware of two miners in his constituency who purportedly were suffering from the disease. Coincident with this referral, a third case, also in a miner, appeared in newspaper account in a different area of the Province.

How the Panel Proceeded

Since this was the first time that the Panel received a referral from an MPP on behalf of his or her constituents IDSP staff conducted a limited review of the literature to see if there was any evidence indicative of a serious problem. The Ontario Workers' Compensation Board provided the Panel with information indicating that their database showed eight claims for scleroderma, the earliest being filed in 1986. Two were rejected, two were allowed and four are pending. Staff also investigated other jurisdictions, both in Canada and internationally, to see if there were any existing policies concerning scleroderma and possible occupational associations. This initial research resulted in the preparation of a "Background Paper on Scleroderma" which was tabled at Panel Meeting No. 45, November 18, 1991 (2). The Panel was satisfied that there exists some information which is suggestive of a relationship between this disease and exposure to silica or some other agent. Accordingly, the Panel voted to place the issue of Scleroderma on its Agenda at its November, 1991 meeting.

The Panel requested that staff investigate the two allowed and two rejected claims to see if particular adjudicatory problems would come to light.

The IDSP then commissioned an exhaustive review of the literature to be conducted by rheumatologist, Dr. Duncan A. Gordon, Professor of

Medicine at the University of Toronto, Senior Rheumatologist, The Toronto Hospital Arthritis Centre, and Editor of the *Journal of Rheumatology*. This report was received February 1, 1992. Some clarifications and refinement resulted in a final report being tabled with the Panel at their meeting on March 18 and 19, 1992 (3).

Also, the WCB made available to the Panel an internal review of the literature that had been prepared by Board staff in the Medical and Occupational Disease Policy Branch (4). This internal document had been precipitated by claims pending at the WCB for this disease. It was also tabled with the Panel.

The Nature of the Disease

The following paragraphs reflect the combined research of IDSP staff and Dr. Gordon.

Scleroderma [literally, hardening of the skin] was first described by Carlo Curzo of Naples in 1753 (5). Not until 1900 was it realized that this thickening and induration [attachment to underlying structures] of the skin frequently involved the visceral organs as part of the same process and that subsequent malfunction of these organs could be rapidly progressive and frequently fatal.

Progressive systemic sclerosis [PSS] is a multisystem disorder characterized by inflammatory, vascular and fibrotic changes. Skin, blood vessels, joints and skeletal muscle are primarily affected, but the gastro-intestinal tract, lungs, heart and kidney may also be severely affected. Scleroderma is a member of a family of diffuse connective tissue disorders which includes systemic lupus erythematosus [SLE], rheumatoid arthritis [RA], polymyositis or dermatomyositis, vasculitis and Sjogren's syndrome (3).

Scleroderma may be divided on the basis of the extent of skin involvement into two different types, **systemic** or **localized**. **Systemic** forms involve vital organs such as lung, heart and kidney, are progressive and associated with premature disability and death. **Localized** forms are usually confined to the skin, often associated with Raynaud's phenomenon, and do not involve vital organs. Some localized scleroderma-like disorders can be chemically-induced and are sometimes of occupational origin but will not be considered further because of their limited effects (6).

Systemic sclerosis may be further sub-divided into two forms, **diffuse** or **limited cutaneous scleroderma**. The **diffuse** type of scleroderma is associated with more severe arthritis, a more accelerated course including early involvement of the visceral organs, a worse prognosis and a higher incidence of mortality than is associated with limited scleroderma. In **limited cutaneous scleroderma**, involvement can be restricted to the fingers or face with the disease progressing slowly—hence a better prognosis unless pulmonary hypertension intervenes.

Scleroderma is a rare disease which is three times more common in women. Total annual incidence is about 4/1,000,000 ranging from 8.3/1,000,000 in white males to 28/1,000,000 in white females, and even higher in black females. Poorer prognosis is seen in men and blacks, in persons with disease onset after 40 years of age and in those with more extensive skin involvement of the type seen in diffuse cutaneous scleroderma.

Panel staff examined the files of two workers whose claims had been denied by the WCB. Both had been diagnosed as having systemic sclerosis. One worker was a caster/moulder who ground steel, copper and brass and had been employed in this capacity for 10 years. Masks had been worn the last three years. The second worker was a sandblaster and spray painter employed for 7 years. In this claim the worker's rheumatologist informed the Board of a possible workplace association with silica.

Both claims were denied because the occupational link was not accepted. There was no question of diagnosis.

Scleroderma and its Occupational Associations

Scleroderma-like disorders have been attributed in the literature to vinyl chloride, trichloroethylene, perchloroethylene, miscellaneous organic solvents, epoxy resin hardener, and silica (6). The characteristic changes due to vinyl chloride disease, found primarily among workers who scrape the vats of unreacted vinyl chloride [VC] monomer, usually revert to nearly normal following cessation of exposure. The reports attributing scleroderma to various solvent exposures are regarded as largely anecdotal (7). Besides VC disease, the vast majority of cases of occupational scleroderma have been described in association with silica exposure in South Africa, Pennsylvania and the German Democratic Republic.

Reports of lung complications of scleroderma in Scottish stonemasons and a coal-miner first appeared in 1914 (8) but not until the 1957 report by Erasmus from South Africa was the relationship of occupational silica exposure and scleroderma noted (9). Erasmus reported 17 cases of scleroderma among gold miners who were exposed to dust containing a high percentage of free silica [+/-30%]. Only six showed radiologic features of silicosis.

In the same country, Sluis-Cremer et al. (10) in 1985 reported a case-control study of 79 white European gold miners. They failed to find an increase in silicosis among those with scleroderma but did demonstrate a consistent pattern of heavy exposure to dust among cases, intensity appearing to be more important than duration.

In contrast to scleroderma found in white European miners, Cowie reported in 1987 and 1990 on a total of 24 black coal miners from the Orange Free State seen over the period 1981-1988 (11, 12). Sixty percent of these cases showed evidence of pulmonary silicosis. Incidence of scleroderma in this group was 81.8/1,000,000 black men aged 33 to 57 vs. 3.4/1,000,000 black men of similar age in the general population.

A decade after the Erasmus study, Rodnan (13) reported on his experience with 150 scleroderma patients, 60 of whom were men. Twenty-six of the men or 43% had worked as coal miners or in other occupations with silica exposure. These men, whose average age was 52, were of the same middle European extraction as the white miners reported on by Erasmus and the East German miners described below. Silicosis was confirmed in 8 of the 19 patients for whom radiographs were available.

The prevalence of scleroderma based on hospital discharges from the Miners Memorial Hospital Association in the Appalachian region outside Pittsburgh was 17/100,000 for miners compared with 6/100,000 for non-miners and 9/100,000 for women.

In a further analysis, of 43 males with scleroderma admitted to University Hospital in Pittsburgh, 47% had been exposed to silica compared with 19% exposed in 86 matched male patients from the same hospital but without scleroderma. It was estimated that 20% of men in a 100 mile radius of Pittsburgh had been exposed to silica, yet 47% of men with scleroderma in the same area were known to have been exposed to silica.

Haustein et al. report on all cases of scleroderma seen in the German Democratic Republic for the period 1981-88 (6, 14-16). Of 120 white males with scleroderma, 93 had been exposed to silica dust and 49 had silicosis. A more detailed investigation of 40 subjects from this latter group revealed features in keeping with diffuse idiopathic scleroderma. The diagnostic criteria of the American Rheumatism Association (17) were met in 38 of these patients.

The Rodnan and Haustein data would seem to reinforce findings reported by Rustin (18) who also examined a group of miners from East Germany. After studying 17 mine workers who developed a systemic sclerosis-like disease and met ARA criteria, the authors reported that "these patients had clinical, immunological and serological features which are indistinguishable from the idiopathic form of the disease".

Other Jurisdictions

In Canada, it would appear that no jurisdiction has policy or guidelines with respect to adjudicating scleroderma claims.

Scleroderma was recognized as an occupational disease in the former German Democratic Republic. Its status after reunification is unclear. Dr. U. Haustein of Karl Marx University, Leipzig, has described the adjudication process as case-by-case (19). Each patient is discussed by a committee of experts (Obergutachtenkommission). Careful consideration is given to all facts such as occupational exposure time to silica, working conditions, interval until the manifestation of the disease, association with silicosis, etc.

In South Africa, scleroderma is mentioned in the *Occupational Diseases in Mines and Works Act* (78 of 1973). This act originated in 1911 and was aimed at improving working conditions in all South African mines. Many aspect of the Act relate to "risk work" and "compensatable disease". Risk work, in practice, is all work below the natural surface of the earth and certain surface operations (work in crusher houses, reduction plants, and on slime dams). The criterion in subsection (2) [defining risk work] is whether any person is exposed to:

- a. dust of which the composition and concentration is such that it is in the opinion of the Minister harmful or potentially harmful;

- b. gases, vapours or chemical substances, or factors [in] working conditions, which in the opinion of the Minister, are potentially harmful.

Section 1 defines "compensatable disease" and paragraph e. of that section reads as follows:

- e. "Any other permanent disease of the cardio-respiratory organs which, in the opinion of the certification committee*, is attributable to the performance of risk work; or progressive systemic sclerosis which, in the opinion of the certification committee, is attributable to the performance of risk work."

*[Medical Certification Committee for Occupational Diseases, established under Section 39]

Panel Conclusions

The Question of Causation

In his classic address on causation, Sir Austin Bradford Hill discussed some parameters which he deemed useful in bridging the gap from an observed association to a verdict of causation (20). As Rothman later notes, Hill clearly did not intend that these criteria be used as some kind of "checklist" or hard-and-fast rules for causal inference (21). Nevertheless, as Hill himself says, "What they can do, with greater or less strength, is to help us to make up our minds on the fundamental question—is there any other way of explaining the set of facts before us, is there any other answer equally, or more, likely than cause and effect?"

While acknowledging that the criteria are too restrictive in and of themselves to form the basis for sound public policy the Panel feels that the criteria can provide a useful structure for thinking about possible workplace associations. As proposed by Hill they are: (1) strength, (2) consistency, (3) specificity, (4) temporality, (5) biologic gradient, (6) plausibility, (7) coherence, (8) experimental evidence, and (9) analogy.

Strength and Consistency

Scleroderma is an uncommon disease of unknown etiology. The literature on the disease itself is not extensive. Reports of possible occupational associations are even more limited. Therefore what is striking in the literature on scleroderma reviewed for this report is the repetition of the association between this disease and an occupational history of exposure to free silica and/or vibratory tools.

Rodnan and colleagues at the University of Pittsburgh found over twice as many of their male scleroderma patients had been exposed to silica as had been males in the surrounding geographical area. Hausteine and colleagues in Eastern Germany claim to have calculated that the likelihood for the development of scleroderma in male silicotic patients older than 40 years of age is approximately 190 times higher than in men without silicosis and approximately 50 times higher in persons exposed to silica dust but without silicosis than in the nonexposed male population. In South Africa, Sluis-Cramer et al. and Cowie et al. have both reported an increased incidence of scleroderma among men exposed to silica dust. Unfortunately, in none of these studies has an attempt been made to examine exposure to vibratory tools as well as silica.

Although we acknowledge that these studies are difficult to compare and that most evidence is descriptive in nature, a definitive epidemiologic study is unlikely to be conducted, owing to the rarity of this disease. The repeated occurrence of a very rare disease, at least three times more common in women, in males occupationally exposed to silica is suggestive of a causal association.

One dissenting voice in the literature is that of Dr. J.R. Ruettner, a Swiss pathologist who is a member of the Silicosis Committee of the United States National Institute for Occupational Safety and Health. Dr. Ruettner challenges the existence of this relationship by the statement, "Among over 2,000 cases of silicosis, only four had scleroderma ... Moreover not a single case of scleroderma was observed in 650 cases of silicosis that underwent an autopsy" (8). His experience is supported in the literature, to some extent, which does not establish a consistent relationship between scleroderma and silicosis. For example, the reports of Erasmus, Rodan and Hausteine show less than 50% of the scleroderma cases were associated with pulmonary silicosis. However, the relationship identified in the literature is the relationship between silica exposure and scleroderma, and not the relationship between silicosis and scleroderma. Furthermore, the reported absence of a diagnosis of scleroderma in the silicotic patients could have resulted from poor detection of the disease rather than an absence of the disease. As Dr. Gordon states, "scleroderma is invariably a clinical, not a pathological diagnosis [and]

rheumatological aspects unless specifically sought could have been easily overlooked" (3).

A population-based case-control study of connective tissue disease conducted in Georgia attempted to collect information on purported environmental and occupational factors, such as silica (22). However the study included only 4 men of 44 total cases.

Specificity, Plausibility and Coherence

It is unfortunate that detailed occupational exposure assessments are lacking and other possible exposures cannot be definitively ruled out. For example, vibration is known to be capable of causing Raynaud's phenomenon and with use of vibratory tools, occupational exposure to dust will likely occur. It could be argued that silica exposure is a surrogate measure for vibration or some other exposure. Although large numbers of the cases in question are miners, other occupations represented have included stonemasons, foundry workers, quarrymen, glass grinders, sandstone-sculptor and cast polisher. Silica is one obvious occupational agent in common.

Some authors have speculated as to how silica might act in the pathogenesis of scleroderma. Hausteine and colleagues (6, 14) have posed that silica particles, ingested by macrophages, lead to release of lymphokines and monokines, which activate fibroblasts, and enhance collagen and glycosaminoglycan synthesis or that silica acts as an adjuvant, increasing immune reactivity. The adjuvant theory is also postulated by Rodnan (13). Sluis-Cramer et al. (10) speculate that "there is an underlying genetically determined constitutional diathesis predisposing a person to PSS. Silica may, through its known profound effects on the immune system, precipitate the disease in those disposed".

In summary, in numerous studies of scleroderma, silica has been implicated as the causal agent, and it is biologically plausible that silica could induce scleroderma in susceptible individuals.

Temporality and Biological Gradient

The retrospective nature of the published studies makes it difficult to say with certainty that the exposure preceded the disease in all cases. The duration of exposure to silica dust in the cases of scleroderma described in the literature ranges from a minimum of 3 years to a maximum of 42 years. However, research in South Africa indicates that intensity of exposure to silica is more important than duration. The South African findings of a decrease in the association of scleroderma with pulmonary silicosis in more modern times could be attributed to better dust control. This could also help to account for the findings in East Germany of Rustin who found more of the limited type of scleroderma than the diffuse variety in his report in 1990. It has been hypothesized that an intense exposure to silica, even of short duration, could overwhelm the pulmonary lymphoid system and give rise to a wider systemic effect (3). There would appear to be some evidence of a biological gradient on the basis of intensity of exposure.

Experimental Evidence and Analogy

As mentioned above, there would appear to be a decrease in the number of diffuse scleroderma cases in the most recent report from South Africa (10). Although speculative, one could postulate that this was due to better dust control and hence lowered silica exposure.

The recent outbreak of the eosinophilic-myalgia syndrome in the United States attributed to a contaminated health food could possibly be considered an analogous environmentally-caused connective tissue disorder (23).

Summary

At the conclusion of his address, Hill states:

"All scientific work is incomplete—whether it be observational or experimental. All scientific work is liable to be upset or modified by advancing knowledge. That does not confer upon us a freedom to ignore the knowledge we already have, or postpone the action that it appears to demand at a given time" (20).

The knowledge we have now is that a number of publications in reputable peer reviewed medical journals offer evidence gathered over four decades in different parts of the world indicating a probable relationship between occupational exposure to silica and systemic sclerosis or scleroderma. In two jurisdictions this evidence has been considered adequate to extend workers' compensation benefits to those with scleroderma and an occupational history of exposure to silica. There is no evidence which discounts the relationship.

We have also considered the issues raised by a staff physician in an

internal WCB staff report. While acknowledging the existence "of some evidence to support a causal association between systemic sclerosis and occupation as a miner", the physician wrote that "the level of excess risk cannot be estimated and the specific causal agent has not been identified. Both silica dust exposure and vibration have been hypothesised to be the causal agents. Studies to date do not confirm these hypotheses" (4).

In consideration of these concerns, the Panel is reminded that inconclusive epidemiologic evidence does not weigh against the possibility of causal association; it merely leaves the scales untipped. A definitive epidemiologic study is unlikely to be conducted owing to the rarity of this disease.

As noted above, scleroderma is sometimes but not always associated with silicosis in exposed workers. The development of silicosis is usually associated with long term exposure to silica. The duration of exposure to silica dust in the cases of scleroderma described in the literature range from a minimum of three years to a maximum of 42 years. Also, as noted above, intensity of exposure would seem to be more important than duration. In reaching a conclusion on this uncommon disease, the Panel is satisfied that the evidence is supportive of a causal relationship between silica exposure and scleroderma.

Findings and Recommendations

FINDINGS

The Panel finds a probable connection between systemic sclerosis and occupational exposure to silica.

The Panel recommends the following rule:

ELIGIBILITY RULE:

- A) Workers suffering from systemic sclerosis [scleroderma] with occupational exposure to silica for a minimum of three years are entitled to compensation

or

- B) Claims from workers with less than three years exposure shall be considered on their own merits. Claims from workers who have experienced high intensity exposure to silica shall be given special consideration.

It is possible that scleroderma should ultimately be placed in Schedule 3. Because the Panel notes that this jurisdiction is lacking in experience with claims of this nature, it has chosen the more cautious route of eligibility rules. The Panel proposes a review of this issue in three years time or earlier if new information becomes available.

Because of the rarity of this disease and the lack of awareness of this causal association the Panel makes the following recommendation:

RECOMMENDATION 1:

The Board issue an information bulletin to promote awareness among stakeholders of the association between silica and systemic sclerosis [scleroderma].

Future Panel Activity

As discussed previously, there is legitimate concern that the occupationally-associated scleroderma observed in the literature could be attributable, at least in part, to use of vibratory tools. This theory was most recently raised by Pelmear et al (24). The Panel intends to further examine the evidence for this association and reserves the right to recommend additional eligibility rules if it deems them necessary.

EXTRA-PROVINCIAL APPLICATIONS:

NOTE: Where the application is for a licence other than a corridor operating authority, an interested person who serves and files an objection must also provide the Ontario Highway Transport Board with written evidence, within thirty-nine days of this publication which satisfies the Board that, in the absence of evidence to the contrary, the operation of the undertaking in respect of which the licence is sought would likely be detrimental to the public interest.

INTRA-PROVINCIAL TRUCK APPLICATIONS:

The following are applications for operating licences under Part III of the Motor Vehicle Transport Act, 1987, S.C. 1987, Chapter 35. The applicants have been found to meet the fitness requirement in like manner to section 6 of the Truck Transportation Act, R.S.O. 1990, Chapter T.22, and the provincial transport board for Ontario proposes to issue the licences unless a person, within thirty days of this publication, serves on the Applicant and files with the Registrar of Motor Vehicles with the prescribed filing fee, a written request for a fitness hearing or a public interest test in like manner to Subsection 7(4) of the Truck Transportation Act, R.S.O. 1990, Chapter T.22.

NOTE: A person who requests a public interest hearing must, within thirty-nine days of this publication, serve on the Ontario Highway Transport Board a document that makes out a written case to the Board that the granting of the operating authority applied for would be likely to have a significant detrimental effect on the public interest using the criteria set out in subsection 10(1) of the Truck Transportation Act, R.S.O. 1990, Chapter T.22, and that the request is not frivolously made.

**RÈGLEMENT MODIFIANT LE
RÈGLEMENT DE L'ONTARIO 254/89
PRIS EN APPLICATION DE LA
LOI SUR LES TERRES PUBLIQUES**

1 Le Règlement de l'Ontario 254/89 est modifié par adjonction de la version française suivante :

PERMIS DE TRAVAIL

1 Pour l'application des alinéas 13a (1) d) et e) de la Loi, l'expression «terres riveraines» s'entend des terres publiques ou privées immergées par un lac, un fleuve, une rivière, un ruisseau ou un étang, et s'entend en outre des terres adjacentes qui sont inondées lors de la crue saisonnière des eaux. Règl. de l'Ont. 265/92, art. 1, *en partie*.

2 (1) Un agent délivre un permis de travail à quiconque en fait la demande, à moins qu'il ne soit d'avis que le travail pour lequel le permis est exigé est, selon le cas :

- a) illégal;
- b) incompatible avec un des éléments suivants ou n'y est pas conforme :
 - (i) un plan officiel au sens de la *Loi de 1983 sur l'aménagement du territoire*,
 - (ii) un plan du ministère sur la gestion des richesses,
 - (iii) les directives du ministère sur l'aménagement du territoire des districts,
 - (iv) une déclaration de principes faite par le ministre des Affaires municipales en vertu de la *Loi de 1983 sur l'aménagement du territoire*,
 - (v) une directive en matière de politiques et de procédure de la Direction de la gestion des terres;
- c) susceptible de compromettre à la sécurité du public ou de porter atteinte à une richesse naturelle, y compris les terres de la Couronne, les eaux et les cours d'eau, les forêts, la flore, la faune et le poisson.

(2) La demande de permis de travail et le permis de travail sont rédigés selon la formule que fournit le ministère. Règl. de l'Ont. 265/92, art. 1, *en partie*.

3 Le permis de travail est valide pour la période et la région géographique qui y sont indiquées. Règl. de l'Ont. 265/92, art. 1, *en partie*.

4 (1) Un agent peut annuler le permis de travail dans les cas suivants :

- a) le titulaire du permis a contrevenu ou ne s'est pas conformé aux conditions du permis;
- b) le titulaire du permis n'a pas entrepris ou n'entreprend pas le travail promptement;

c) un des motifs de refus prévus au paragraphe 2 (1) existe ou existerait si le travail se poursuivait;

d) un permis d'exploitation délivré conformément à l'article 15 de la *Loi sur la prévention des incendies de forêt* pour le même lieu a été annulé en vertu de cet article.

(2) Avant de refuser de délivrer un permis de travail ou avant de l'annuler, l'agent donne à l'auteur de la demande ou au titulaire du permis un avis écrit de son intention.

(3) Avant de refuser de délivrer un permis de travail ou avant de l'annuler, l'agent donne à l'auteur de la demande ou au titulaire du permis l'occasion de soulever son opposition lors d'une audience tenue par l'agent.

(4) L'auteur d'une demande de permis de travail ou le titulaire d'un tel permis qui s'oppose aux conditions du permis, parce qu'il les juge trop lourdes ou inutiles compte tenu de la nature ou du lieu du travail à effectuer, doit avoir l'occasion de soulever son opposition lors d'une audience tenue par l'agent.

(5) Après l'audience prévue au paragraphe (3) ou (4), l'agent communique par écrit sa décision motivée à l'auteur de la demande ou au titulaire du permis.

(6) Dans les quinze jours suivant la date de mise à la poste de la décision motivée de l'agent, l'auteur de la demande ou le titulaire du permis peut, en déposant ses observations écrites, demander au directeur régional du ministère dans la région où le travail est ou doit être effectué de réexaminer la décision de l'agent.

(7) Le directeur régional ou son délégué examine les observations écrites de l'auteur de la demande ou du titulaire du permis et l'avise de sa décision.

(8) La décision rendue en vertu du paragraphe (7) est définitive.

(9) Malgré le paragraphe (1), un agent peut annuler un permis de travail, sans donner au titulaire du permis l'occasion d'être entendu, si la poursuite du travail en vertu du permis pose, à son avis, un danger immédiat pour l'intérêt public. L'agent en donne un avis écrit motivé au titulaire du permis.

(10) Immédiatement après l'annulation du permis de travail en vertu du paragraphe (9), l'agent renvoie la question au directeur régional pour réexamen. Les paragraphes (7) et (8) s'appliquent au réexamen. Règl. de l'Ont. 265/92, art. 1, *en partie*.

ORDER IN COUNCIL/DÉCRET

O.C./Décret 1173/92

On the recommendation of the undersigned, the Lieutenant Governor,

by and with the advice and concurrence of the Executive Council, orders that:

Sur la recommandation du soussigné, le lieutenant-gouverneur, sur l'avis et avec le consentement du Conseil des ministres, décrète ce qui suit :

WHEREAS section 14 of the *Environmental Assessment Act* provides that where the Minister of the Environment has accepted an environmental assessment of an undertaking, the Minister may with the approval of the Lieutenant Governor in Council, give approval to proceed with the undertaking subject to such terms and conditions as the Minister considers necessary, or refuse to give approval to proceed with the undertaking;

WHEREAS, having considered the purpose of the Act, the environmental assessment, as accepted, of the undertaking, which is the subject of the attached notice, the undersigned Minister of the Environment is of the opinion that the undertaking should be given approval to proceed, subject to the terms and conditions specified in the attached notice; and

WHEREAS only one notice requiring a hearing was received and the concerns raised in that notice have been addressed by the proponent and the submitter of the notice has not indicated any continuing wish for a hearing to be held, and the Minister of the Environment does not consider it advisable to require a hearing;

THEREFORE, pursuant to the provisions of the *Environmental Assessment Act*, the undertaking which is the subject of the attached notice, be given approval to proceed subject to the said terms and conditions.

HENRY N. R. JACKMAN,
Lieutenant Governor

NOTICE OF ACCEPTANCE OF THE ENVIRONMENTAL ASSESSMENT AND NOTICE OF APPROVAL TO PROCEED WITH THE UNDERTAKING

RE: Class Environmental Assessment for Minor Transmission Facilities

Proponent: Ontario Hydro

EA File No.: OH-TR-03

TAKE NOTICE that the date for receipt by me of submissions or requirements for a hearing on the above Environmental Assessment as amended by the proponent (Revision 5) and/or its Review, provided for in the *Notice of Completion of Environmental Assessment Review*, dated September 6, 1991, expired on October 6, 1991. I received no requirement for a hearing by that date and one requirement for a hearing after that date. The concerns raised in that notice have been addressed by the proponent and the submitter of the notice has not indicated any continuing wish for a hearing to be held. I do not consider it advisable to require a hearing.

Acceptance of the Environmental Assessment

Having considered those matters set out in Section 8 and pursuant to Section 9 of the Act, I accept the Environmental Assessment.

Approval of the Undertaking

Under Section 13 of the Act, before the decision on approval to proceed with the undertaking can be made, the proponent has the opportunity to require a hearing by the Environmental Assessment Board.

The proponent has waived this right.

Having considered the purpose of the Act, the Environmental Assessment of the undertaking as accepted, and the Review, I hereby give

approval to proceed with the undertaking subject to the following terms and conditions:

1. Except as provided by the subsequent conditions, the proponent shall comply with all the provisions of the Class Environmental Assessment as accepted, which are herein incorporated by reference.
2. Ontario Hydro shall carry out a re-evaluation of the Class EA covered by this approval and advise the Minister of the Environment of the results of this evaluation by April 30, 1996. At that time, Ontario Hydro shall specify the manner in which it proposes to continue to ensure that the purposes of the *Environmental Assessment Act* are achieved for projects within the Class.
3. The following amendments shall be incorporated into the Class EA:
 - (a) In section 3.3.2. on pages 3-8:
 - Add the following after item (e):
 - f) Notify the Band Councils of any potentially affected Indian Reserves. Where non-Reserve Aboriginal or Metis communities may be potentially affected, notify appropriate Aboriginal and Metis organizations (e.g., the Ontario Metis and Aboriginal Association).
 - Delete the sentence regarding Band councils in Item (b).
 - (b) In section 3.3.3 on pages 3-9, revise the sentence regarding consultation to read:

"Ontario Hydro will use the screening process in consultation with directly affected government ministries, agencies, conservation authorities, municipalities, Band Councils, Aboriginal and Metis Associations such as the Ontario Metis and Aboriginal Association, special interest groups and the public in order to identify environmental concerns.
4. This approval shall terminate on April 30, 1997 or such later date as the Minister may specify, from time to time, by notice in writing to the proponent and in the Ontario Gazette.

Reasons

The reasons for giving approval are:

1. On the basis of the proponent's Environmental Assessment, the proponent's conclusion that, on balance, the advantages of this undertaking outweigh its disadvantages appears to be valid.
2. The Class Environmental Assessment Document specifies a planning procedure which will ensure that environmental effects are considered when projects within the Class are planned or implemented.
3. On the basis of the proponent's Environmental Assessment, the Review, and the Conditions of Approval, the construction, operation and maintenance of the undertaking will be consistent with the purpose of the Act (section 2).

Dated at Toronto this 23rd day of April, 1992.
